

The small business alternative for email and scheduling

Exchangel!

Turn communication into action quickly and cost-effectively

NET INTEGRATION TECHNOLOGIES

ExchangeIt! Communicates

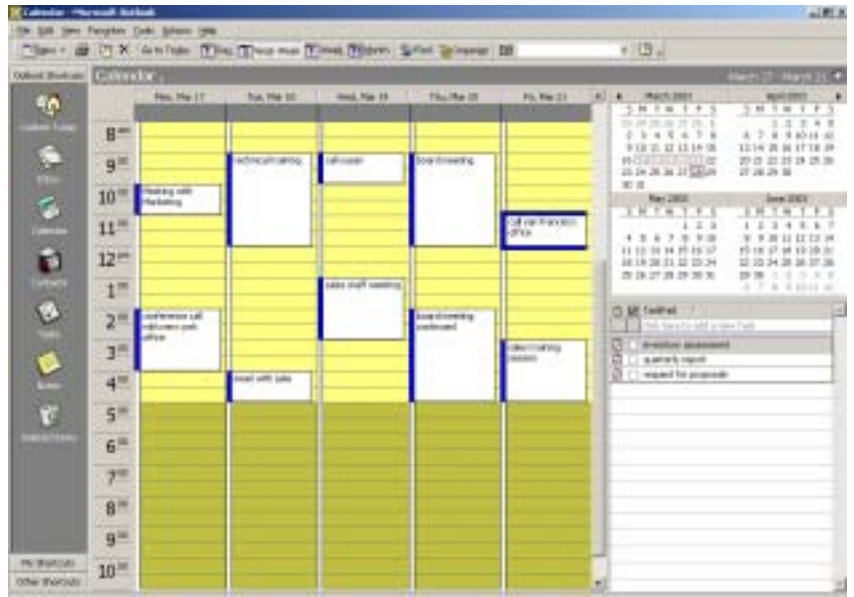

Finding a reliable and secure application to provide group scheduling, shared contact management and tasks lists has been a growing challenge for small businesses and remote office operations. Finally, there's an answer to your collaboration needs: *ExchangeIt!* offers all the communication and collaboration capabilities you need at an affordable price and with unprecedented reliability.

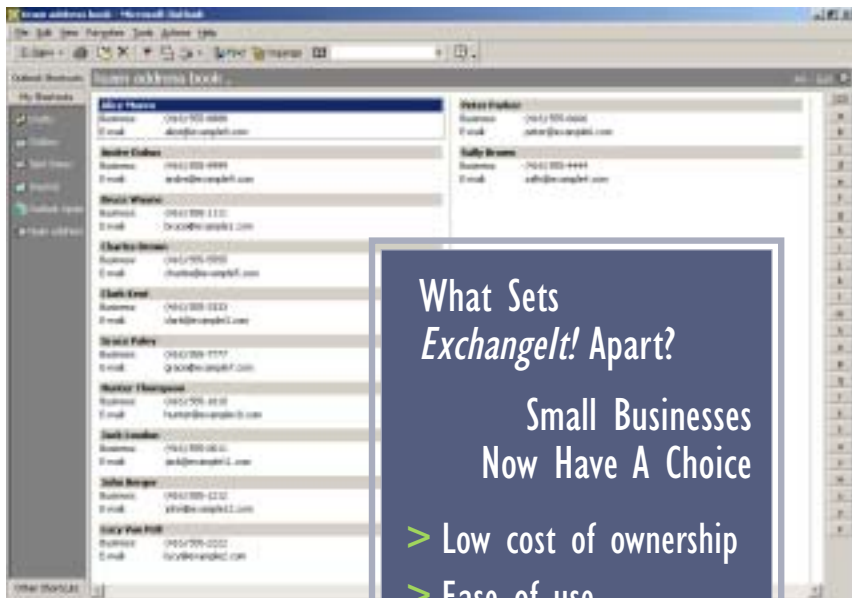

Whether you access your email, calendar or address book with Outlook®, over the web, your PDA, or an open source software solution, *ExchangeIt!* provides the groupware connectivity you can depend on to improve your business productivity.

ExchangeIt! is the most reliable alternative to popular groupware and collaboration products such as Microsoft® Exchange and IBM® Lotus® Domino.

ExchangeIt! integrates seamlessly into Outlook

What Sets *ExchangeIt!* Apart?

Small Businesses Now Have A Choice

- > Low cost of ownership
- > Ease of use
- > Seamless Outlook, Web and Linux integration
- > Ease and speed of installation
- > Low maintenance and overhead cost
- > Real-time recoverability from failures

Key Features and Benefits

Universal Messaging

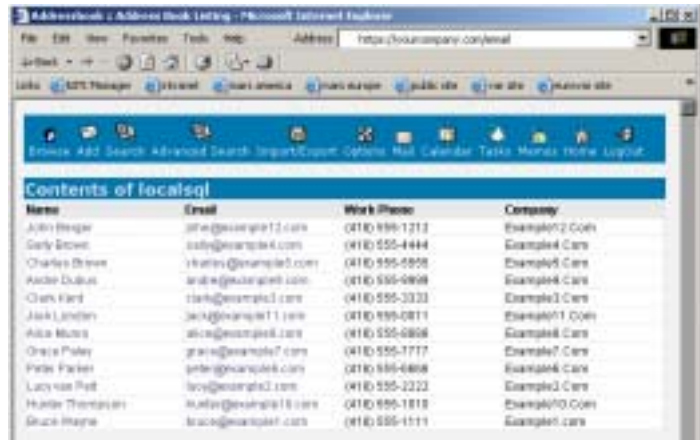

- *ExchangeIt!* is the only groupware product on the market to simultaneously and transparently support the following clients: Microsoft® Outlook®, secure browser-based access over the Internet*, and Ximian® Evolution™*.

Calendar and Collaboration

- **Schedule Management:** Create, track, manage and share calendars.
- **Integrated Free/Busy Server:** Invite users to meetings, and when they accept, the event appears in everyone's calendar. Prevent schedule conflicts by finding out instantly when people and resources are available.
- **Team Tasks/Calendars/Contacts:** Use shared calendars and contact lists to create, track and manage team projects.

Reliability and Recoverability

- **Supports Redundant Internet Connectivity:** *ExchangeIt!* works seamlessly across multiple Internet connections to keep your communications flowing.
- **Instantaneous Recovery:** In the unlikely event of a hardware failure or unexpected shutdown, *ExchangeIt!* is designed to recover in two minutes or less.

Access your address book securely over the web

Access Management

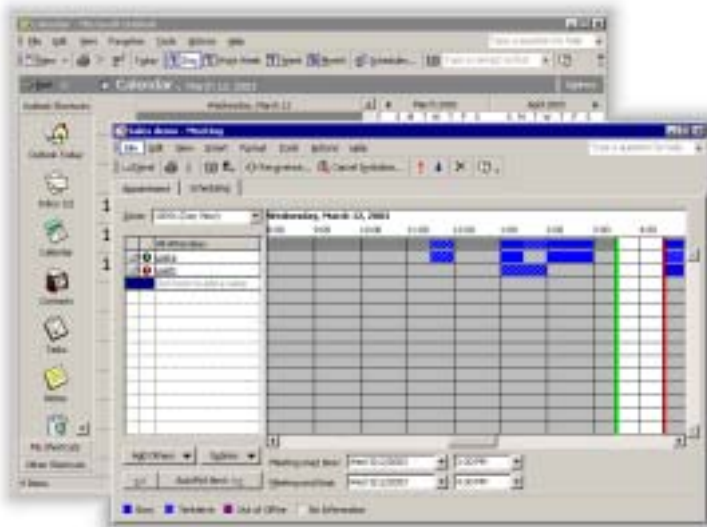

- **Access Control Lists:** Administrators and Users have control over who can edit, view or change calendars, contact lists and task lists.

Scalability

- **Unlimited Messaging Storage:** The amount of email and the size of calendars and contact lists that can be stored are virtually unlimited.

Security

- **Data Protection:** Guard your information with Nitix's anti-virus functionality, intelligent self-configuring firewall, and innovative system recovery and automated backup capabilities.

Group scheduling is easy with ExchangeIt!

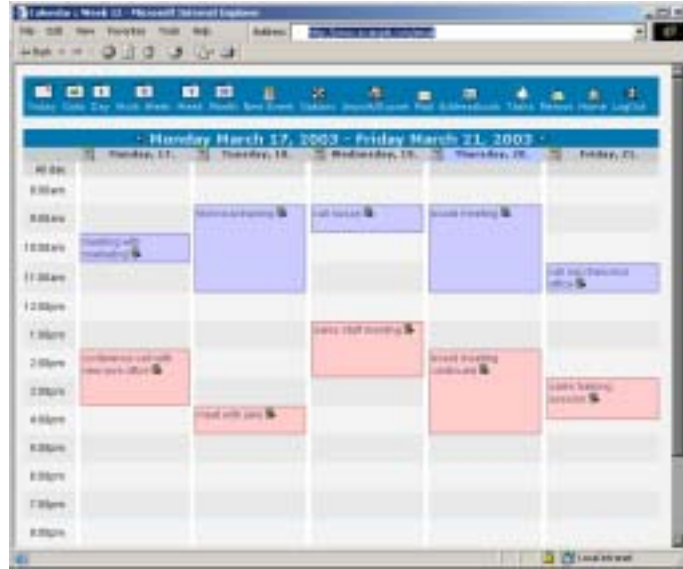

Portability

- **Handheld Synchronization:** For the ultimate in convenience, *ExchangeIt!* users can synchronize shared address books, calendars and task lists, in addition to email, directly into any PDA or handheld computer that supports synchronization with Microsoft® Outlook® or Ximian® Evolution™.

In the office or on the road, online or with your PDA, using Microsoft® Outlook® or Ximian® Evolution™, *ExchangeIt!* manages your communications and provides the tools you need to connect and share information quickly and easily.

ExchangeIt! is a plug-and-play software application **exclusive** to the award-winning Nitix™ server operating system. *ExchangeIt!* leverages Nitix's patent-pending technologies to provide additional functionality and power, far surpassing other collaboration products in ease of installation, low cost and maintenance, disaster recovery and data protection.

Secure access to email, calendars, address book and task lists on the web

ExchangeIt! and the Nitix family of server products can fulfill your Information Technology needs. Together, they make the perfect collaboration/groupware solution for organizations who need enterprise-class communications, but have a small business budget.

How to Buy *ExchangeIt!* and Nitix
